

MUHAMMAD DANYAL

mdanyal.khan42@gmail.com | +92 313 9709274 | Baghkoroona, P/O Kalyas, Tehsil & District Charsadda

PROFESSIONAL SUMMARY

Motivated Software Engineering student who is currently studying in 7th semester, with a strong foundation in Computer Science and Information Technology. Skilled in C++, Python, basic Flutter development, and fundamental Data Structures & Algorithms (DSA). Proficient in MS Office and familiar with software design, programming, and problem-solving concepts. Strong academic background with a keen interest in software development, artificial intelligence, and emerging technologies. Seeking opportunities to apply technical knowledge, gain practical experience, and contribute to real-world projects.

EDUCATION

Iqra National University, Peshawar

Bachelor of Science in Software Engineering | 2023 – Present

- Currently 7th Semester
- Expected Graduation: 2027
- CGPA **3.8/4.0**

Epistemics College of I.T & Management Science, Peshawar

Diploma in Information Technology | Mar 2022 – Mar 2023

- Achieved **86.78%** (1215/1400 marks).

CERTIFICATIONS

Generative AI Application Developer Certificate | Top Performer
UETIANS Lahore Endowment Foundation, USA | 20 December 2025

- Completed the NCEAC – HEC Generative AI Training (Oct – Nov 2025), offered in collaboration with NCEAC, HEC, Pak Angels, iCode Guru, and Aspire Pakistan.
- Certificate ID: 6673e83822e1fb49
- https://quiz.ideagist.com/ideagist-certificate?cert_hash=6673e83822e1fb49 [Verify Certificate](#)

PROJECTS

DanixPOS | Flutter, Dart, SQLCipher

Private repository

- Enterprise ERP and Point of Sale ecosystem built with Flutter, featuring AES-256 SQLCipher database encryption, real-time LAN sync, and a background reporting engine.

RideHisab | Flutter, Dart, SQLite, Provider

https://github.com/mdanyal-khan/ride_hisab

- Offline-first finance tracker for rideshare drivers (inDrive, Uber, Yango) to log rides, tips, expenses, and platform commissions locally, with day/week/month dashboards and optional Google Drive backup.

HRMS N8N | Flutter, Dart, Supabase

Private repository

- Adaptive Flutter client recreating an HR automation platform across mobile, web, and desktop, with Supabase-backed role-based (RBAC) authentication and database storage.

FindBack AI | Python, Streamlit, FAISS, PyTorch, SQLite

<https://github.com/mdanyal-khan/findbackAI>

- Campus lost-and-found platform that matches reported lost and found items using AI similarity scoring (semantic + rule-based), with claim review, handover workflow, and role-based access.

AI Chatbot | Python, LangChain, Hugging Face, Streamlit

https://github.com/mdanyal-khan/AI_Chatbot

- Chatbot with switchable Qwen 2.5 (7B) and Llama 3.1 (8B) models, streaming responses, conversation memory, adjustable generation settings, and chat export.

Resume Info Extractor | Python, LangChain, Pydantic, Streamlit

https://github.com/mdanyal-khan/resume_info_extractor

- Extracts structured, schema-validated data from PDF resumes using Qwen2.5-7B-Instruct (local or Hugging Face API) and exports results as JSON, CSV, or a text report.

PDF RAG Chatbot | Python, LangChain, Chroma, Streamlit

https://github.com/mdanyal-khan/simple_pdf_rag_chatbot

- Retrieval-augmented chatbot for asking questions about an uploaded PDF, using local MiniLM sentence-transformer embeddings, a Chroma vector store, and Qwen2.5-7B-Instruct.

Portfolio Website | HTML, CSS, JavaScript

<https://mdanyal.page.gd/> | <https://github.com/mdanyal-khan/Portfolio>

- Responsive personal portfolio with dark/light theme, filterable project gallery, contact form, and SEO-ready structured data, with no frameworks or build tools.

Task Manager App | Flutter, Dart

https://github.com/mdanyal-khan/Task_Management

- Flutter mobile app for organizing daily tasks with reminders and categories.

BMI Calculator App | *Flutter, Dart*

https://github.com/mdanyal-khan/BMI_Calculator

- Flutter app that calculates Body Mass Index from height and weight and shows the matching health status category.

Smart Document Analyzer | *Python, LangChain (LCEL), Groq, Streamlit*

https://github.com/mdanyal-khan/smart_document_analyzer

- Analyzes PDF/TXT documents with Llama 3.3 70B in one parallel pipeline, generating a summary, key points, keywords, title, sentiment analysis, and an auto-scored quiz.

TECHNICAL SKILL

- **Programming:**

- Basic Flutter Development
- C++
- Python
- Data Structures & Algorithms (DSA)

- **Tools:**

- MS Office (Word, Excel, PowerPoint)
- Draw.io
- VS code
- Android Studio

ADDITIONAL DETAILS

- **Hobbies:**

- Cricket
- Movies

- **Languages:**

- Pashto (Native)
- Urdu (Fluent)
- English (Fluent)
- Turkish (Basics)
